

MANAGER'S REPORT

June 8, 2009

Kastrup, Valhalla, and Thor Lake have been treated.

The Walking Path across the Dam is complete.

Lakengren Maintenance made the 1st cement bench to be placed along the Walking Path.

The exterior of the pool has been painted. The exterior of the Lodge will be painted once the lumber for the balconies/stairs arrive and maintenance completes the replacements/repairs needed. The lumber has been ordered but is slow getting here.

The new freezer for the restaurant has been repaired with a new part. Hopefully it fixed the problem and it will begin to function properly.

Tammy has checked with Barbara at Eaton National Bank for information on electronic draft services and direct deposit for payroll. She will get back to us soon.
