Safety and Security Committee Report

The Safety Committee discussed a few things this month. One of them being that, for Deputy Caplinger to use the patrol boat and write citations we still need a Flashing Blue Light for it. It is state law that it has to be Blue for him to use the boat. Kevin (Thorpe) said that he would get it. We also discussed if maybe Deputy Caplinger should have a set of keys to the patrol boat.

We talked a little about the radios, and what is going to happen in 2013 with them changing. We also talked about maybe getting a scanner for the patrol truck so it could monitor the channels better.

Also discussed having radio checks for patrol when they are out of the truck for a length of time, to check and see if they are ok. The Sheriff's office does this for their patrols and it is just a little bit more of security that we could add to keep the patrol safer.

The next meeting will be on August 19th at 5pm at the lodge.
